Remarks

For additional information, refer to user's guide.
Do not press key using a pointed tool.
Reference object (target): Steel cylinder diameter 8.0 mm.
For more information about MTTF and B10d see MTTF / B10d Certificate

Indication of the MTTF- / B10d value does not represent a binding composition and/or life expectancy assurance; these are simply experiential values with no warranty implications. These declared values also do not extend the expiration period for defect claims or affect it in any way.
