

The drawing shows a square plate with a central square hole. The plate has four circular holes at the corners. A cross-section view on the right shows the plate's thickness and a central vertical line.

NGS . . . DA

A diagram of a square with four corner fasteners. The square is defined by a solid black border. At each of the four corners, there is a fastener symbol consisting of a small circle with a crosshair inside. A horizontal dashed line and a vertical dashed line intersect at the center of the square, dividing it into four quadrants.
