

IN800307

Inductive sensors • Increased switching distance

sensor inductive, Ø80mm 40long, Non-flush, Sn: 70, 10-30V DC, PNP NC/NO, Cable 2m PVC, IP67, Aluminum / PTB, factor 1

including 1x Screwdriver

Inductive proximity switches are contact-free sensors. They detect all conductive metals, regardless of whether they move or not. The achievable sensing range of the devices depends on the object material and its dimensions. The vibration-resistant sensors can be approached laterally or frontally. Inductive proximity switches are used for presence detection (e.g. goods carriers), positioning (e.g. dampers), counting (e.g. nuts /bolts), speed detection (e.g. for cog wheels), on conveyor systems (e.g. hose feedings) or distance measurements (e.g. press-in checking) of metallic objects.

Electrical features

Type of switching function	Normally closed contact/normally open contact
Type of electrical connection	Cable
Type of switching output	PNP
Rated switching current	200mA
Switching distance	70mm
Operating voltage (DC)	10 - 30V

Mechanical features

Number of cores	3
Conductor cross-section	0.5mm ²
Alignment of cable entry	axial
Design	Cylinder plain
Diameter	80mm
Cable length	2m
Cable infeed	axial
Length	40mm
Mechanical mounting condition for sensor	non-flush
Degree of protection (IP)	IP67
Active area material of sensor	Plastic (PBT)
Housing material	PBT
Material of cable sheath	Plastic (PVC)
Material independent sensors (factor 1)	Yes
Ambient temperature	-25 - 75°C

Other features

Ambient temperature	-25 - 75°C
---------------------	------------

Classification

ETIM 8	EC002714 Inductive proximity switch
--------	-------------------------------------

More

IPF Product Group	203 inductive sensors (diverse)
packaging dimensions	220 x 160 x 40 mm
gross weight	370 g
Customs tariff number	85365019
WEEE number	40951076
Reach-compliant	Yes
RoHS-compliant	Yes

Connection

Installation

Mounting / installation may only be carried out by a qualified electrician!

Disposal

Safety warnings

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information.

Never use these devices in applications where the safety of a person depends on their functionality.

For suitable connection and mounting accessories, please refer to our website www.ipf-electronic.com.
