

OTQ40203

Optical sensors • Diffuse reflection sensors with background suppression

sensor optical, diffuse-reflection sensor, 45x6,2x4mm, Sn: 50, 11-30V DC, 1x PNP/NPN
Push-pull, Cable 2m PVC, IP65, Plastic ASA+PMMA, Polarity free red light, Point

Optical sensors function contactlessly. They detect objects independent of their characteristics (e.g., shape, color, surface structure, material). The basic operating principle is based on the transmission and reception of light. There are three different versions: 1. The through-beam sensor consists of two separate devices, a transmitter and a receiver that are aligned with one another. If the light beam between the two devices is interrupted, the switching output integrated in the receiver changes its status. 2. With the retro-reflective sensor, the transmitter and receiver are located in one device. The emitted light beam is reflected back to the receiver by a reflector that is to be mounted opposite the device. As soon as the light beam is interrupted, the switching output integrated in the device changes its status. 3. With the diffuse reflection sensor, the transmitter and receiver are in one device. The emitted light beam is reflected by the object that is to be detected. As soon as the receiver detects the reflected light, the switching output integrated in the device changes its status.

Electrical features

Number of switching outputs	1
Display	LED display
Type of switching function	Öffner (NC bei PNP) Schließer (NO bei NPN)
Type of electrical connection	Cable
Type of switching output	Push-pull
Rated switching current	50mA
Short-circuit protection	Yes
No-load current	30mA
Line diameter	2.5mm
Switching distance	50mm
Reverse polarity protection	Yes
Operating voltage (DC)	11 - 30V

Mechanical features

Number of cores	3
Conductor cross-section	0.1mm ²
Design	Cuboid
Width	4mm
Height	44.8mm
Cable length	2m
Length	6.2mm
Maximum tightening torque	0.25Nm
Degree of protection (IP)	IP65
Volume	Small
Active area material of sensor	Plastic (PMMA)
Housing material	Plastic ASA
Material of cable sheath	Plastic (PVC)
Ambient temperature	-10 - 50°C

Optical features

Light source	Polarity free red light
Light beam form	Point
Wavelength of the sensor	660nm

Other features

Operational mode	Background suppression
Reference medium / object	Material with 90% reflectivity
Ambient temperature	-10 - 50°C

Classification

ETIM 8	EC002719 Photoelectric proximity switch with background suppression
--------	---

More

IPF Product Group	100 optical sensors
packaging dimensions	123 x 77 x 25 mm
gross weight	39 g
Customs tariff number	85365019
WEEE number	40951076
OzDS-compliant	Yes
POP-compliant	Yes
Reach-compliant	Yes
RoHS-compliant	Yes

Connection

Installation

Mounting / installation may only be carried out by a qualified electrician!

Disposal

Safety warnings

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information.

Never use these devices in applications where the safety of a person depends on their functionality.

For suitable connection and mounting accessories, please refer to our website www.ipf-electronic.com.
