**Model number****WCS2-LB1-C**

WCS2 locking bracket

Features

- Easy setting of fixed points
- Powder coated

Matching system components**WCS2-PS1-C-2,5M**

WCS2 profile rail, coated

WCS2-PS1-C

WCS2 profile rail, coated

Dimensions**Technical data****Mechanical specifications**

Material	Metal sheet (steel), zinc-plated
Mass	50 g
Coating	powder coated , 100 μm

Notes

To prevent the aluminium profile rails slipping in the rail holders when installed horizontally, a locking bracket is necessary. The locking bracket WCS2-LB1 is fitted around a rail holder in the middle of the runway. During installation, bracket and aluminium profile are joined with the screw supplied. To do this, the aluminium profile must be drilled through at one point (drill 7 mm).
