

Coding Pins

KF-CP

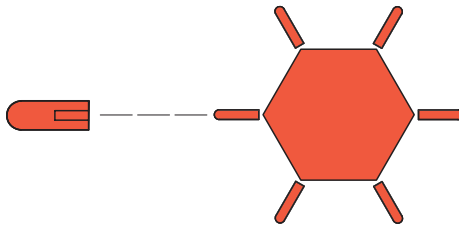

- Coding of K-System terminal blocks
- Coding of LB/FB-System front sockets
- Packaging unit: 20 x 6 coding pins

Red coding pins, packaging unit: 20 x 6

Function

Coding pins provide a unique correlation between device and terminal block. Faulty connections can be prevented. The coding pins can be inserted into the corresponding slot of the terminal block or the front socket.

Application

Technical Data

Mechanical specifications

Material	insulating material
Color	red
Mass	approx. 1 g per coding pin
Dimensions	0.5 x 2 x 8 mm (0.02 x 0.08 x 0.3 inch)

General information

Packing unit	120 item(s) (20 x 6 items)
