- Degree of protection IP68 / IP69K
- Direct connection via cable outlet

G10 ultra compact module, 4 outputs

Function

The AS-Interface G10 ultra-compact module is suitable for the remote connection of signal elements within very limited space. Up to 3 light and one siren element can be connected to the module. The one-piece enclosure has the protection degree IP68/IP69K. The AS-Interface flat cable is contacted via pointy, gold-plated contact pins. The exact location of the pins on the lead is ensured by the swivel mechanism. Actuators are connected to the module via M12 sockets. Multiple LEDs indicate the current status of the AS-Interface strand and are used for diagnosis.
