CE · HART COMMUNICATION PROTOCOL

Function

The Termination Board is designed for easy HiDMux2700 Multiplexer integration with the Tricon safety system.
With the Multiplexer integrated into the board and plug-n-play option for the DCS equipment, this provides a very clean access to the HART signals, while reducing the need for marshalling cabinets and reducing equipment that require extra cabinet space.
The HART Termination Board provides a robust solution for on-line HART communications, interfaces up to 32 field located HART devices, and, it allows the user to replace standard DCS field termination panels.
