

# Inductive Analysis Module for Extreme Temperature Ranges

## INTT329

Part Number

- Cable lengths of 5 to 20 m
- Cable with analysis module integrated into M12 sensor connector
- Compatible with INTT320 sensor head
- Easy to replace sensors with data storage feature
- Three configurable switching distances: 30/35/40 mm

The inductive high-temperature sensors, consisting of a sensor head and an analysis module with cable, are designed for use in very hot work environments. Long switching distances and a long service life in hot areas ensure maximum system reliability. Sensor heads can be replaced without the use of tools, and numerous standard cable lengths with integrated analysis module are available separately. weproTec technology makes it possible to install the sensors directly next to or opposite one another. In addition, IO-Link can be used to individually configure sensor parameters like switching distance and output functions.

### Technical Data

| Electrical Data                             |                                        |
|---------------------------------------------|----------------------------------------|
| Supply Voltage                              | 10...30 V DC                           |
| Supply Voltage with IO-Link                 | 18...30 V DC                           |
| Current Consumption (U <sub>b</sub> = 24 V) | < 15 mA                                |
| Switching Frequency                         | 50 Hz                                  |
| Temperature Drift                           | < 10 %                                 |
| Temperature range of the plug               | 0...70 °C                              |
| Number of Switching Outputs                 | 2                                      |
| Switching Output Voltage Drop               | < 1 V                                  |
| Switching Output/Switching Current          | 100 mA                                 |
| Residual Current Switching Output           | < 100 µA                               |
| Short Circuit Protection                    | yes                                    |
| Reverse Polarity and Overload Protection    | yes                                    |
| Interface                                   | IO-Link V1.1                           |
| Protection Class                            | III                                    |
| Mechanical Data                             |                                        |
| Analysis module material                    | V2A; PEEK; PTFE; Brass (chrome plated) |
| Degree of protection, sensor head           | IP50                                   |
| Degree of protection of the plug            | IP50                                   |
| Connection                                  | M12 × 1; 4-pin                         |
| Cable Length (L)                            | 15 m                                   |
| Outer diameter cable                        | 3,4 mm                                 |
| Bending Radius                              | > 17 mm                                |
| PWIS-free                                   | yes                                    |
| Safety-relevant Data                        |                                        |
