

K53

Part Number

Technical Data

Optical Data

Fiber Core Diameter	0,5 mm
---------------------	--------

Fiber Core	PMMA
------------	------

Fiber	Step Index
-------	------------

Opening Angle	55 °
---------------	------

Mechanical Data

Temperature Range	-40...85 °C
-------------------	-------------

Bending Radius	15 mm
----------------	-------

Fiber Optic Length	10 m
--------------------	------

Material Jacket	PE (black)
-----------------	------------

Diameter Jacket	1 mm
-----------------	------

Packaging unit	1 Piece
----------------	---------
