

LED Indicator Set

for a beam distance of 400 mm

Z99G014

Part Number

Technical Data

Optical Data

Light Source RGBW

Electrical Data

Supply Voltage 20,4...28,8 V DC

Temperature Range 0...55 °C

Power 24 W

Mechanical Data

Brightness setting 4 levels

Degree of Protection IP20

LED indicator for a beam distance of 400 mm

- Avoidance of inadvertent ESPE resolution settings
- Quick identification of ESPE operating states
- Visualization of operating states in different colors

The LED indicators indicate the operating states of SEFG safety light curtains and SEFB multi-light arrays in color. Depending on the utilized signal output, users can choose between four colors (RGBW) and select the desired light intensity. The setting is entered via the connection unit.
