DIN compensating cable KPL SY XX x 1,5	valid from : 01.12.2008

Application

The compensating cables KPL Version SY XX x 1,5 mm² are multi-cored PVC insulated cables with steel wire armouring which transmit the thermoelectric voltage of PtRh/Pt thermocouples. They are for flexible use and fixed installation in dry and damp rooms with medium mechanical load. They may only be installed outdoors with UV protection and in observation of the max. permitted temperature range. The steel wire armouring serves as mechanical protection.
