Wrapping label for cables and pipes.
Used for industrial, electrical and telecom installations in indoor environment.
Print area with laminated transparent foil for protection.
Delivered on a roll for thermal transfer printing.
Different sizes for different cable diameters.
UV-resistance.
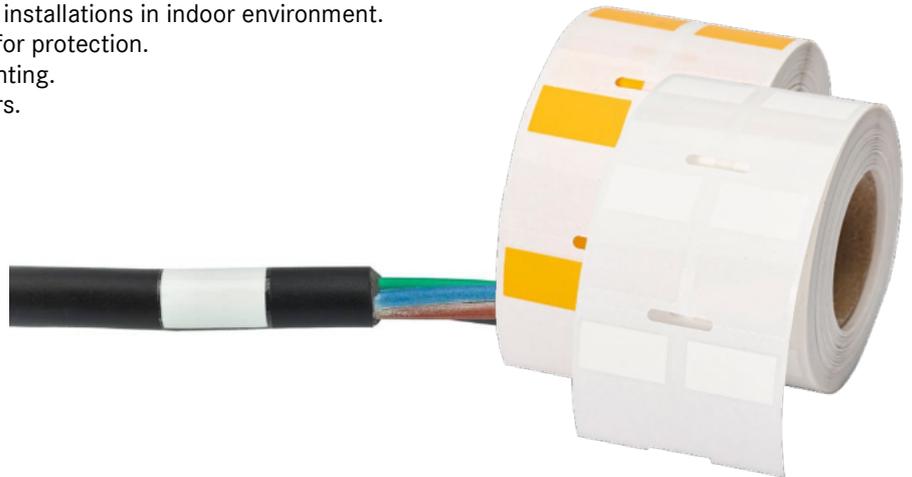

Technical data:

Material:	Polyester
Adhesive:	Permanent acrylic
Core:	38mm (standard)
Colour:	White, Yellow
Temperature range:	-40°C to 125°C
Applying temperature:	min 10°C
Recommended storage:	21°C and 50% RH, <two years

Other product data:

ETIM Classification:	EC001288 Labelling material
Country of origin:	SE

Advantages:
Print your own durable marking when you need it.
No cable ties are necessary for mounting.
Durable marking with a laminated protection over the text.
Halogen free material with UV-resistance.
Text with long term durability thanks to thermal transfer printing.
Thermal transfer printing method increases smudge, scratch resistance and resistance to oils and chemicals.
Only two labels in one row makes the printing process more cost-efficient.

Print area

**Laminated foil**

Amount of labels in a row

Delivery:

Wrapping label is delivered on a roll for printing with a thermal transfer printer.

Mounting:

FLEXIMARK® Wrapping label TCK is mounted directly on the cable, by wrapping the label around the cable with printing area first. At the end the transparent foil will cover the printing and protect the print against different strains.
